The essence of education is skill in extracting meaning from everyday experience

A teacher's purpose is not to create students in his own image, but to develop students who can create their own image.

The best teachers teach from the heart, not from the book.

Better than a thousand days of diligent study is one day with a great teacher.

Japanese Proverb

Teaching is not just a job. It is a human service and it must be thought of as a mission.

Dr. Ralph Tyler

One looks back with appreciation to the brilliant teachers, but with gratitude to those who touched our human feelings. The curriculum is so much necessary raw material, but warmth is the vital element for the growing plant and for the soul of the child. ~Carl Jung

Class Advisor

I was just thinking back to a time when you were all in the eighth grade, just starting out, just as I was, not quite sure of a lot of things. I was new at being an advisor, and you were new at being in high school. We were all a little rough around the edges, but I could tell the Class of 2004 had something special to offer. And then, in the spring of 2000, we held our first dance; 'Islands in the Sun", remember that one? I do... behind the scenes we had a few glitches in the system from fire alarms to no ice, but we worked it out and I know that night some wonderful memories were made. How about the sophomore fashion show? "Stylin on Fashion Ave", proved that, yes, you were the best! What can I say!! You were all stars on stage and you still are to me. In between, we had "Deck the Halls." You can't forget those fun times and hard work together either, when we spent countless hours cutting and painting.

Sometimes in life you have to make choices and change, move on and try new things. One regret I have is that I missed your last year in high school, but I had to see what I wanted to be when I grew up. Growing up can be a hard job, so you have to remember to laugh and play along the way. Don't be afraid to try new things and be adventurous, there's so much out there. Reach high, strive to achieve your goals, and don't forget to ask for help along the way if you need it. Life is full of wonderful memories and I'm glad that you are all a part of mine. And lets not forget the Junior Prom... "Unforgettable" that's what you are to me!

To you the Class of 2004 I wish you much success, happiness and love,

Mrs. Mahoney

We, The Class of 2004, would like to dedicate this book to
Mr. Morris and Mr. Steward

Mr. Mick Morris

"He is an excellent teacher who not only supports us in class, but also attends many school events in order to show his encouragement outside of school."

"Mr. Morris has shown us what the world can be."

"He is the world's greatest teacher. He tells the world's greatest stories. He plays Irish music and whistles very well. He lets us learn about the humanities and history with the aid of entertaining educational videos and movie masterpieces. His class is the school's best course. He is my father. In the educational sense, I mean."

Mr. Morris has accomplished the impossible by making history fun. As Marshfield High's only full-blooded Irish, he proudly wears his culture and heritage and teaches his students to do the same. Mr. Morris' students are challenged and nurtured by his tough yet caring personality. He really wants his pupils to succeed in every way possible, and if he is harsh that is the only reason why. However, he does know how to have fun. Known as the prankster of MHS, Mr. Morris is famous for playing pranks on his students, as well as being the victim of students' pranks in return. He continues to support pupils outside of the classroom by being the assistant coach of the girls' soccer team. Mr. Morris is knowledgeable, articulate, supportive and caring. He is everything a great teacher should be. Mr. Morris has left an imprint in the hearts and minds of his students.

Mr. Buddy Steward

"He is the unsung hero of MHS. He helps out every teacher and sports team with taping a game or audiovisual problems."

"He keeps the gossip of MHS going."

"He's been a part of this class as much as he has been a part of any other class before us. He knows everything that is going on and deserves to be recognized."

"He is funny, a great teacher and fun to be around."

Unlike most high schools, Marshfield High doesn't have an audiovisual club. We have Stew's Crew. Mr. Steward, better known as "Stew", orchestrates the technology of our school. He teaches students how to manage technology, a skill that will be useful in future. Stew also takes the responsibility to tape every school sports event and meeting. As well as taping school activities, Stew helps students broadcast the school announcements, "Before the Bells", which is a creative way for students to dispense the daily news. "Stew has believed in us. He's helped us with personal problems and listened to what we had to say. He has helped us keep our memories through photo and video. Stew is interested in everything we do and attends all school functions with us. He has also given us the chance to learn about something new, fun, and interesting!"

Underclassmen

Children need your presence more than your presents.
Jesse Jackson

You know your children are growing up when they stop asking you where they came from and refuse to tell you where they're going.
P. J. O'Rourke

Maturity is only a short break in adolescence.

I honestly think it is better to be a failure at something you love than to be a success at something you hate.
George Burns

If your plan is for one year, plant rice; If your plan is for ten years, plant trees; If your plan is for a hundred years, Educate children.
Confucius

Try not to become a man of success, but rather try to become a man of value.

We cannot always build the future for our youth, but we can build our youth for the future.
Franklin D. Roosevelt

Success is to be measured not so much by the position that one has reached in life as by the obstacles which he has overcome.

Class History

To the Class of 2004,

Regardless of our elementary school playgrounds and our middle school years, each of us was brought together in September of 1999. Not only did we enter a new school together but a new millenium. Computers held strong, and we made it through the day our parents "never thought would come". Already determined, we managed to put together our very own tropical dance. For the very first time we had our fathers tie our ties and went dress shopping with our mothers for the evening. Since that first dance with the newcomers Britney Spears, Nysnc, and Backstreet Boys, our musical tastes have slightly changed yet at each semi our class has known how to throw on our dancing shoes for a good time.

Freshman year Martinson and Furnace Brook renovations were finally complete and we were to be the youngest for two years in a row. We stepped up to the challenge and began to gain the reputation we have now, shining in and out of the classroom. When we look back now we realize how special it was to have that extra year at MHS.

As sophomores, we were the middle grade, but we refused to go unnoticed as we caught the attention of the entire school with an evening of "Stylin' on Fashion Avenue", our tenth grade fashion show. Surrounded by bright lights cameras, and nervous smiles, we hosted another successful class event. Academically, we continued to soar and fill the honors and AP offerings while taking the dreaded MCAS for graduation requirements. Each of us remembers where we were on September 11th of our sophomore year. Together, family, friends, teachers, and administrators comforted us as a new gratitude, patriotism, and maturity was found in each of us.

Junior year opened our eyes to the reality of the future. Despite the pressure of being an upperclassmen, we managed to juggle finding a prom date with boosting our SAT scores. In the spring, princesses in gorgeous pastels and gentlemen in tuxedos emerged under the elegant Lambardo's chandelier. Our night was truly "Unforgettable" and along with proving our strong sense of unity we began to form memories and take pictures that our children will one day admire.

Senior year, amazingly, had come and gone yet the memories formed each day will remain in our hearts forever. We were faced with the reality that we would be leaving MHS soon, and we narrowed down our choices and were forced to make mature decisions. College? The Army? Work? The future was now in our hands. We tried to take things one day at a time, and as leaders of the school we excelled in academics, athletics, and activities. We spent our last few months together at Senior Night Out, Senior Banquet, and Grad-Night Live just to name a few events, and learned hard way to appreciate moments with our friends before they are gone.

High school had ended but what we have experienced in this town will stay with us forever. Because not only have we sat through the Revolutionary War, mean and median,and the Scientific Method together, but we have managed to have a little fun along the way. Together we have experienced the Patriots winning the superbowl, a mysterious decrease in school cookie size, the reality television craze, the cursing of Aaron Boone, an astronomical amount of Wendy's, and summers at the beach. As this chapter of your life comes to a close, it is my honor to congratulate you on a job well done in your high school career. The next phase of your life is waiting for you. Show them how it's done.

"Go confidently in the direction of your dreams. Live the life you've imagined." -Thoreau

Sincerely,
Rachel Brean
Class of 2004 President

This was the day I went out on my first date with Erin Lynn, my future fiancee. I love her so much that I can't wait to marry her and start our own life together. My funniest times were at Wendy's with my friend Tim Jesse and my brother Kevin Farrell. One of the best times in my high school years was hanging ou with my best friend Steve Green. He was always there for me and always made me laugh. These are the be memories of my High school years.

I remember going on dates with Tara in December. Going to the movies with my brother and my friends Steve, Jake, Tim, Erin and Tara. The pillow incident with Steve. We had a lot of fun at Wendy's with my brother and our friend Tim Jesse. We had fun during the summer on my boat with Steve, Tim, Erin and Tara. The time Steve yelled YEEEHAA in the movie theater. The semi. The prom. Working on my boat all night. Going to California. The time I did a 180 on the skiff and Tara flew off. The time I got Steve's 115 outboard motor ou of a dumpster. When my brother and I had our senior pictures take on the boat, we ran out of gas on the wa ome and Erin had to row back to the big boat to get more gas. We all had lots of fun.

Ladies, notice this boy, s worth your time and money. Kathryn - You're not even up here yet, but I know when you here you'll only make the place brighter. I'm going to miss you, and trust me, I'll be there to t up your first boyfriend. Keep working hard and playing harder, I know you'll grow to be a nderful person. Any time you want to talk or yell - let me know, I'll never turn you away. Mom Dad - Thank you, first of all. I can't really express all my feelings, but through all my stubborn er and frustration, you guys have been trying to help me after all, and I am so thankful. nough it might not be apparent at times I love you both so much - thank you for everything. obably wouldn't have made it through this place without your love and encouragement, so e again, thank you.

Football

Four years absent from last winning a league championship, the Marshfield Rams entered the season determined and inspired to return to the Super Bowl while dedicating the entire season to Coach Ron Digravio. Behind the solid leadership of the seniors and with the supporting cast of strong junior and sophomore classes, the Rams brought Marshfield back to the top of the state football rankings.

After a huge league win over Bridgewater-Raynham, the Rams were upset by Falmouth. Inspired by the loss, along with the inspiration of playing for Coach Digravio, the Rams went on a tear outscoring their opponents 164-43 over the course of the five games to close out the season before the Thanksgiving Day matchup. The win streak was highlighted by a 26-7 win over Brockton on Homecoming and a 42-14 win over Barnstable to win the OCL Championship.

After a disappointing 7-7 tie against an under-matched Duxbury team, the Rams went on to demolish Brockton again 25-7 to advance to the Division 1 Super Bowl against nationally ranked Everett. The Rams disappointedly lost 21-0, but not without a hard fight lasting to the final whistle. The Rams finished 8-3-1, winning the OCL, being a runner-up in the Division 1 Super Bowl, and finishing ranked 4th in the state of Massachusetts. Most of all they brought back the winning ways of Marshfield football and played well-executed and inspired football for their late coach, Coach Ron Digravio. He will remain in our hearts forever.

To put the world right in order, we must first put the nation in order; to put the nation in order, we must first put the family in order; to put the family in order, we must first cultivate our personal life; we must first set our hearts right.

Confucius

Good parents give their children Roots and Wings. Roots to know where home is, wings to fly away and exercise what's been taught them.

Jonas Salk

A simple friend thinks the friendship over when you have an argument. A real friend knows that it's not a friendship until after you've had a fight.

Friendship is a horizon— which expands whenever we approach it.

E. R. Hazlip.

To nourish children and raise them against odds is in any time, any place, more valuable than to fix bolts in cars or design nuclear weapons.

Marilyn French

Friendship is the hardest thing in the world to explain. It's not something you learn in school. But if you haven't learned the meaning of friendship, you really haven't learned anything.

What a Wonderful World

I see trees of green, red roses too
I see them bloom for me and you
And I think to myself what a wonderful world

I see skies of blue and clouds of white
The bright blessed day, the dark sacred night
And I think to myself what a wonderful world.

The colors of the rainbow so pretty in the sky
are also on the faces of people going by
I see friends shaking hands saying how do you
do, They're really saying I love you

I hear babies crying, I watch them grow
They'll learn much more than I'll ever know
And I think to myself what a wonderful world.
Yes, I think to myself what a wonderful world.

We love you.
Good luck always

To My Son

On behalf of your mother, sisters, grandmother, and both sides of our respective families, I offer congratulations for a unique and successful high school career. What has impressed me the most has been that despite your many achievements you have remained a humble and unassuming young man. You have maintained and expanded a circle of extraordinary young men and women as your friends. As I advised your sisters - work hard, be fair, and use your many innate talents wisely, and further success is achievable. I can only wish you health and happiness. My only regret is that your two grandfathers never were able to make your acquaintances. Good luck, Best Wishes, but most importantly - Thanks, Mike.

brownie scout to senior scout

From shuffle, ball, chain to red hot salsa,
soccer games to field hockey games

From squeeky viola to Canon in D,

Thanks for the memories these last 17 years.
We're looking forward to so many more.

One of the BEST things God ever did for me
was giving me YOU for a daughter.
Through these years, my love has grown to amazement;
my pride to admiration.
You are a gift!
I see you poised at the threshold of open doors,
and I envy the world its opportunity
to share your beauty of style and grace...as I have.
I will miss you more than words, yet I'm excited for you
as you head out to fulfill your dreams.
I have never doubted, nor will,
your choices and ability to find your dreams.

"And in our willingness to step into the unknown, the field of all possibilities, we surrender ourselves to the creative mind that orchestrated the dance of the universe."

My wish for you as always:
to find that which makes YOU happy (and enjoy the dance)!
I love you, Mom

Mike Fahey

Whose son is this I think we know.
This fine young man whom we've watched grow,
Whose filled our hearts with joy and love
Watched over by an angel from above.

It was the way he went after goals without fear.
It was his smile and laugh
that made him so dear.
It was the way his abilities began to appear;
His promising future will soon become clear.

His great sense of humor, the calls he'd make
after late nights he was difficult to wake.
He gave much more than he could ever take for
he still hasn't learned to take a break.

As he embarks on this new journey
We shall try not to weep.
For he has so many promises to keep,
And miles to go before he sleeps,
And miles to go before he sleeps.

Dedicated to the Dartmouth College

Our sincere thanks to you, Mr. Deftos, for promoting and providing for the technological changes that have taken place in the production of this book over the years.
Thank you for all your support and guidance.

The yearbook staff would also like to thank the following people for all your help in the production of this book:
McGrath Studios, Tara Anderson, Christina Ripka and the Jostens State College, PA Plant, Ray Bergeron, Carrie Eastman, Muriel Muha, John Napoleone, Nancy Currie, Rebecca Helman,
All those who provided pictures, and all our patrons.

My Big Jolly Plump Greek Principal

How would you like to perpetually repeat high school, reliving the drama, the work, the petty arguments, the mean teachers, and troublemakers over and over again? A horrible fate to most, but our own principal, Mr. Deftos, has walked these crowded halls for more than thirty years. A stout man with an enormous heart and a vivacious smile, a man that made it a point to know everyone's name, because to him not only were you a star athlete, an honor roll recipient, or juvenile delinquent, he recognizes that we are people with feelings, emotion, and a life outside of his reach. Mr. Deftos sees the potential in all of us to succeed, regardless of whether you are an overachieving, average, or less than motivated student. He acknowledges that every single student here has a unique personality and set of talents to contribute to the school.

How could we forget his charismatic broadcasts on *Before the Bells*, or the astounding way he knows everyone and everything that goes on in this school? Mr. Deftos has watched us grow from immature eighth graders to "know it all" seniors. He has always been there to support all of our school functions and groove with us on the dance floor. He takes a personal interest in his students and it is that attention, his selflessness, which makes him the man that he is and MHS the school that we have.

High school is a place meant to foster the growth of individuals. In this scary, influential stage in our lives it is necessary to have a father figure to look up to and trust. Just think of the hours we've spent here in "his house' under his rules, and it's almost as much time as I spend at my own house. In these five long years I have learned so much about myself, life, the world, math, history, English, anatomy, and most importantly about peole. Mr. Deftos understands that everyone you meet deserves to be greeted with a smile. He is one of the only people that could rival my school spirit and Greek pride. He is not afraid to make a difference or make someone's day a little brighter. He is a prince in his own right , but never too proud to be a pal. Finding adults that make an attempt to understand and deal with hormonal teenagers isn't easy, but he has transcended his position with both grace and humor, and we will never forget him.
